

Ken Agritech is one of the largest exporter of preserved fruits & vegetables from India, partnering with small farmers to deliver farm-fresh, global-standard products year-round.

Established in 1997, the company has grown steadily by continuously expanding its product portfolio, strengthening customer service, and upholding a strong commitment to sustainability. In addition, the company undertakes private-label packaging for major global brands, meeting international quality and compliance standards

Certified to meet all legal, safety, and industry standards, ensuring consistent quality. Compliance is verified through rigorous third-party inspections and testing
